

HOME CARE NURSING AGENCY

Professional care, *at home.*

Licensed Ghanaian nurses caring for your family in their own home. Every visit is recorded and shared with you the same day.

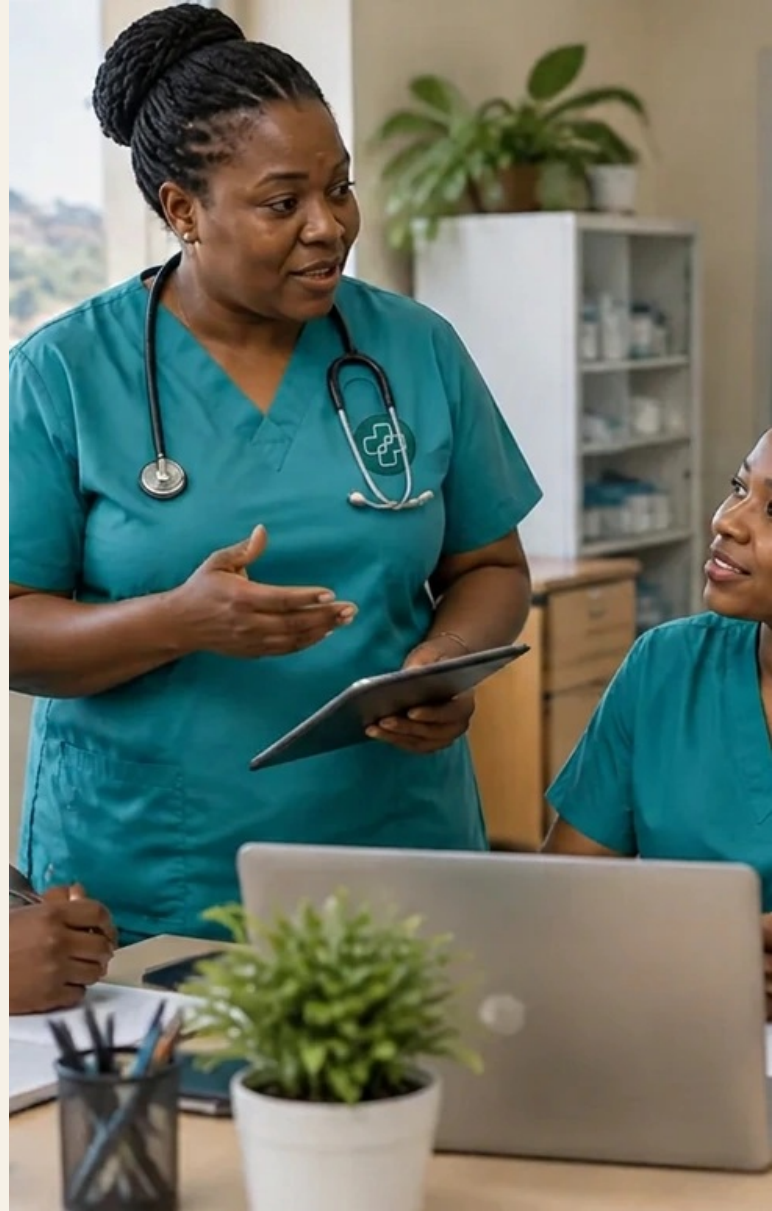

SEE THE CARE. TRUST THE CARE.

[TRUENURSECARE.COM](https://truenursecare.com)

Care you can see. *Confidence you can feel.*

TrueNurse Care is a premium, technology enabled home nursing agency based in Kumasi and serving families throughout Ghana.

We employ licensed, vetted Ghanaian nurses to deliver professional clinical care with dignity. A secure record of every visit gives authorised family members clear, timely visibility, wherever in the world they live.

“

A better answer for families who cannot always be in the room, and refuse to settle for guesswork.

WHO WE SUPPORT

01

Older people and adults

Consistent support to remain safely and comfortably at home.

02

Families living abroad

A transparent way to arrange and follow care in Ghana.

03

Patients after hospital

Structured recovery and clinical observation after discharge.

04

Clinical referral partners

Documented continuity, with prompt escalation when conditions change.

Eight ways we care *for your family.*

Each service is delivered by a licensed nurse, planned after a clinical assessment, and documented on every visit.

01

Elderly care and companionship

Clinical checks, personal care, mobility and medication support.

02

Post surgery recovery

Wound checks, pain observation, infection watch and safe mobility.

03

Dementia and Alzheimer's care

Calm routines, safety and one familiar nurse, kept in place.

04

New mother and newborn care

Postnatal observation, feeding support and reassurance at home.

05

Comprehensive wound care

Sterile dressings, pressure sore prevention and diabetic wounds.

06

Rehabilitation support

Supervised exercises and progress tracking after stroke or fracture.

07

Respite for family carers

Planned nursing so family carers can rest while care continues.

08

Medication and vitals monitoring

Blood pressure, pulse, temperature, oxygen and symptom checks.

+ *Not sure which service fits? A senior nurse will assess and recommend honestly.*

Nothing is *taken on trust.*

Our secure care portal turns every home visit into a clear clinical record that authorised family can read the same day, from Kumasi or London.

01 Timestamped visits

Arrival and departure, to the minute.

02 Vital signs

Blood pressure, pulse, temperature, oxygen.

03 Medication

What was given, in what dose, at what time.

04 Daily wellbeing

Meals, mood, mobility and practical updates.

05 Notes and photos

Shared with dignity and consent.

06 Supervision

Concerns reviewed and escalated promptly.

Amlodipine 5 mg given at 08:15. Metformin 500 mg with breakfast.

NURSE NOTE

Ate well and walked to the veranda with support. Bright mood; asked about her grandson in London.

● Shared with 3 family members

ILLUSTRATIVE EXAMPLE

One record. Authorised family access. The same day.

04 HOW IT WORKS

From first call *to visible care.*

1

A conversation

We listen to the condition, routine, home, and what worries the family most.

2

Clinical assessment

A senior nurse visits and prepares a written care plan with clear goals.

3

Nurse matching

A licensed, vetted nurse chosen for the clinical needs, language and household.

4

Scheduled care

Visits follow an agreed rhythm, with the same nurse wherever possible.

5

Every visit recorded

Times, vitals, medication, meals, mood and observations are logged.

6

Family sees the care

Authorised relatives receive the record; concerns are escalated promptly.

THE RESULT

Professional clinical support at home, with a trusted nurse and a record the family can see from anywhere.

Clinical care with *dignity and proof.*

+ Licensed and vetted

Registered nurses, identity and background checked, employed by TrueNurse Care and clinically supervised.

+ Built around the person

The plan reflects the patient's condition, preferences, routine, home and family.

+ Visible from abroad

Authorised relatives in the UK, Europe or the US can review documented care the same day.

+ Honest clinical boundaries

We work alongside doctors and midwives, and advise honestly when home care is no longer appropriate.

"You can be in London and still know exactly how Mum's morning went."

FOR FAMILIES ABROAD

Arrange care by phone or WhatsApp from anywhere. Settle invoices in one place and share access with siblings, so everyone reads the same record.

ARRANGE CARE

Your first step is a *conversation.*

Tell us about the person who needs care, where they live and the support your family is looking for. We will explain the next step and arrange a clinical assessment.
